TOP 5 THINGS YOU CAN DO TO CONSERVE

1. DON’T BE STUCK UP
   Turn off the lights when you leave a room.

2. LAYER FOR THE WEATHER
   Adjust your wardrobe instead of the thermostat.

3. SWITCH TO CFLs
   Refuse to use inefficient incandescents.

4. GIVE IT A REST
   Shut down or set your computer to standby.

5. HIT THE STRIP
   Make unplugging easy by using a power strip.
