

APRIL 2021
GREEN TIP

LEAVE GREEN SPACES BETTER THAN YOU FOUND THEM

With warmer weather moving in, April is the perfect month to start spending more time outside. Our campus, which is an accredited arboretum, has plenty of green spaces to use to study, distantly hang out with friends or share a meal.

To plan the perfect outdoor event:

- Make sure to dispose of whatever trash you produce when you're outside in the proper landfill or recycling stream
- Ditch single-use dishware and bring your own reusable containers and dishes for an outdoor meal. If you're getting food from the dining hall, use the [Green2Go](#) program
