

MAY GREEN TIP

Plant a Native Pollinator Garden

April showers bring May flowers and May flowers need bees and other pollinators! By planting native plant species at home, you can help conserve and attract wild bee species, which in turn sustains local agricultural production and helps the environment.

Flowers Native to Southeastern PA:

- Goldenrod
- Butterfly or Common Milkweed
- Wild Bergamot (Bee Balm)
- Eastern Purple Coneflower
- Coreopsis (Tickseed)
- Aster
- Yarrow
- Black-Eyed Susans
- Joe-Pye Weed
- Ohio Spiderwort
